REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: **the specific limitations of** "a multi-modal pore size distribution, wherein the multi-modal distribution has about 20 or fewer pore size maxima" in the combination as claimed in **claim 1**, are not anticipated or made obvious by the prior art in the examiner's opinion. **For example, Takiyama et al.** (4,954,141) disclose a polishing pad for chemical-mechanical polishing comprising a porous foam with an average size of about 50 micron or less, and a porosity of about 60% to 95% of the average pore size (see fig. 1). **However**, the art of record considered as a whole, alone or in combination fails to provide or suggest, "a multi-modal pore size distribution, wherein the multi-modal distribution has about 20 or fewer pore size maxima".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
